Summer Camps Scholarship Application

LSSU's Summer Engineering Camps are exclusive programs offered to only 16 gifted scholars in each session. Nearly all of the sessions are taught by university professors with selected/talented university students assisting the participants in the hands-on activities. Every participant will work with modern engineering laboratory facilities that include real-world robots, electronics equipment, engineering software, and computers.

Every participant automatically receives a \$300 scholarship from Lake Superior State University, resulting in a fee of either \$695 (live-in) or \$595 (day student). Additional funding is being sought for highly achieved applicants and/or based on financial need. Please complete this form to be considered for additional Summer Camp Scholarship funds.

Please type or print all information. Additional sheets may be attached if necessary.

Personal Information:

Name (last, first, middle): _____
Address: _____
City: _____ State/Province: _____ Zip/Postal code: _____
Date of Birth: _____ Age: _____
Phone: _____ Alternate Phone: _____
Applicant's e-mail: _____ Parent's e-mail: _____

- I have participated in Northwestern University's Midwest Academic Talent Search (NUMATS) Program.
- I have participated in a FIRST activity/event.

Applicant for:

- Women in Technology Program
- Robotics Camp

Required: On the reverse side of this form (or on attached paper, 1-2 pages) discuss why you are requesting additional scholarship funds and if your request is based on merit and/or need. Please include yours and your parent/guardian's signatures at the end of the essay. If available, attach any supporting material.

Please return completed scholarship application form to:
