

Don't Be A Litterbug

LAKE SUPERIOR

STATE UNIVERSITY

Don't Be a Litterbug!

This bulletin board was designed for World Water Day 2021 by Lauren, Kaitlyn, and Rayanne, students in EDUC 423 Arts Methods for Elementary Teachers at Lake Superior State University.

Because distance learning made it impossible for students to construct bulletin boards in person, students were challenged to create interactive bulletin boards for teachers to use in celebration of World Water Day 2021. Please feel free to use this bulletin board idea in your classroom!

Don't Be A LITTER-BUG!

Save the Duck's Home from litter!
