As a consortium student, I authorize the appropriate staff members of the financial aid, business, registrar and regional center offices at Lake Superior State University and NCMC to exchange information on my application, discuss my financial aid and provide each other with necessary academic information, such as hours attempted, hours completed, and course grades each semester so that satisfactory progress can be determined. I understand federal financial aid requires attendance in each class in which I receive aid. I further understand that to qualify for a 100% withdrawal and any tuition refund where appropriate at LSSU, I must drop all of my classes at both institutions and may be required to repay my federal financial aid. I authorize NCMC to submit a copy of my transcript to LSSU each semester for Satisfactory Progress monitoring and record keeping purposes.
