

BACHELOR OF SCIENCE BUSINESS ADMINISTRATION - MANAGEMENT

The management major is designed to provide students with a broad background in business by presenting courses covering the functional areas of business. This degree enhances a student's ability to think, innovate, communicate, team build, and problem-solve to offer a competitive advantage to businesses. Students develop management and leadership skills by engaging in research projects and real-world experiences that deliver exceptional cost, quality and timeliness. Graduates nurture authentic, hard-working, ethical and efficient managerial practices to offer top performance from themselves and others. This program prepares students for human resource and leadership positions in business and non-profit organizations.

This program is accredited by the Accreditation Council for Business Schools and Programs.
